

EDUCATION

National University of Singapore
Bachelor of Science (Honours): Business Analytics & Economics

Aug 2026 - Jul 2030

Anderson Serangoon Junior College

'A' Levels: All distinctions

Jan 2022 - Dec 2023

- H2 Mathematics, H2 Economics, H2 Chemistry and H2 Biology.
- Competed in Singapore Biology Olympiad, ASRJC ICT Champion/CCA EXCO, participant of Talent Outreach Program.

KEY SKILLS

- Programming Language: Python, Flutter, R, HTML/CSS, JS and Visual Basic for Applications (VBA).
- Data Analysis Techniques: Econometrics, Regression Analysis, Deep Neural Networks, Machine Learning.

EXPERIENCE

RSAF, Air Operations Specialist

Jun 2024 - Jan 2026

- Automated operational workflows using Python/VBA, reducing manual tasks. Collaborated with 'RAiD' department to come up with data driven solutions for the management of cranes and UASs with the intent to optimise the unit's resource allocation and operational efficiency.
- Given leadership Roles (Operational Cell 2-IC), developed iLEARN courses and awarded 'Best Airmen of the Month (Apr 25).

PROJECTS

Spam Message Predictor

May 2025 - May 2025

- Multinomial Naïve Bayes model to predict new data values (new messages).
- Usage of Pandas, Sklearn, and Matplotlib in Python for data cleaning, processing and visualisation, using different vectorizers to maximise predictive functions.
- Optimized deep learning architectures deploying hyperparameter tuning in scikit-learn and TensorFlow, achieving >85% accuracy and demonstrating quantitative rigour and problem-solving skills.

K- Nearest Neighbour to predict future BMI

Apr 2025 - Apr 2025

- Devised a BMI prediction script using k-NN with cosine similarity, achieving >90% accuracy, underscoring data-driven decision-making applicable to client credit solutions.
- Utilised Confusion Matrices to highlight and misclassification of data and Scatter Plots for data visualisation of trends.
- Segmentation analysis to uncover client retention and product affinity patterns, providing actionable insights for targeted strategies.

Portfolio Website

Jan 2025 - Mar 2025

- Using HTML/CSS, I created a website to display my qualifications.
- Sections include: Projects, Experience, Education and Contact.
- <https://evannoshy.github.io>
